Memo to:

Government Administration  
and Elections Committee

In Relation to the bill number B.116325

I strongly urge you members of the Government Administration and Elections Committee to support this bill, which I understand will become H.B. 6325.

I am a member of the NW Mental Health Board as a Town Representative. If Mental Health Boards deemed not important - much misunderstanding needs to be addressed.

Mental Health Boards are an integral part of the whole collaborative process of community providers and consumers working together to have screening based practices in place for individuals in need living in our community.

Please support H.B. 6325

Sincerely,  
Barbara Roberts
